

## Sage 50 Accounts 2009

More than just simple financial control.

In times of financial crisis cash flow is king! As companies grow and become more established, they need and demand more from their business software.

'New' Sage 50 Accounts 2009 provides a business management system that provides sophisticated tools to manage debt, control costs and maximize profit.

The process based navigation and reporting in Sage 50 Accounts allow growing businesses to develop and effectively manage their business processes.

The payment process control means that the most critical processes within your business are fully controlled.

For companies who require project based accounting functionality, Sage 50 Accounts 2009 enables you to track all income and expenditure for a specific project or phase, comparing your budget against actual expenditure. This means that the project comes in within budget ensuring you maximize your profit.

Sage 50 2009 Accounts is suitable for businesses who are looking for a solution to improve management of customers and suppliers (credit control processes) though have more analysis requirements (department) than Sage 50 Instant customers and have minimal requirements to manage stock or projects.

### What makes our services different from other suppliers?

All our staff have a part ownership of the business, they do not just work for a basic wage, which means that as a company we are focused on our customers and their business.

Our goal is to always go that extra mile!
